Professional Governance Standards

The Board of Education and the Superintendent believe that its primary responsibility is to act in the best interests of every student in the district. The Board and Superintendent also have major commitments to parents/guardians, all members of the community, employees, the state of California, laws pertaining to public education, and established policies of the district. To maximize effectiveness and public confidence in district governance, Board members and the Superintendent are expected to govern responsibly and hold themselves to the highest standards of ethical conduct.

The Individual Trustee
In California’s public education system, a trustee is a person elected or appointed to serve on a school district or county board of education. Individual trustees bring unique skills, values and beliefs to their board. In order to govern effectively, individual trustees must work with each other and the superintendent to ensure that a high quality education is provided to each student. To be effective, an individual trustee:

1. Keeps learning and achievement for all students as the primary focus.

2. Values, supports and advocates for public education.

3. Recognizes and respects differences of perspective and style on the Board and among staff, students, parents and the community.

4. Acts with dignity, and understands the implications of demeanor and behavior.

5. Keeps confidential matters confidential

6. Participates in professional development and commits the time and energy necessary to be an informed and effective leader.

7. Understands the distinctions between Board and staff roles, and refrains from performing management functions that are the responsibility of the Superintendent and staff.

8. Understands that authority rests with the Board as a whole and not with individuals.

The Board
School districts and county offices of education are governed by boards, not by individual trustees. While understanding their separate roles, the board and superintendent work together as a “governance team.” This team assumes collective responsibility for building unity and creating a positive organizational culture in order to govern effectively. To operate effectively, the Board must have a unity of purpose and:

1. Keep the district focused on learning and achievement for all students.

2. Communicate a common vision.

3. Operate openly, with trust and integrity.
4. Govern in a dignified and professional manner, treating everyone with civility and respect.
5. Govern within Board-adopted policies and procedures.
6. Take collective responsibility for the Board's performance.
7. Periodically evaluate its own effectiveness.
8. Ensure opportunities for the diverse range of views in the community to inform Board deliberations.

The Board's Jobs
The primary responsibilities of the board are to set a direction for the district, provide a structure by establishing policies, ensure accountability and provide community leadership on behalf of the district and public education. To fulfill these responsibilities, there are a number of specific jobs that effective boards must carry out. Effective boards:

1. Involve the community, parents, students and staff in developing a common vision for the district focused on learning and achievement and responsive to the needs of all students.

2. Adopt, evaluate and update policies consistent with the law and the district’s vision and goals.

3. Maintain accountability for student learning by adopting the district curriculum and monitoring student progress.

4. Hire and support the superintendent so that the vision, goals and policies of the district can be implemented.

5. Conduct regular and timely evaluations of the superintendent based on the vision, goals and performance of the district, and ensure that the superintendent holds district personnel accountable.

6. Adopt a fiscally responsible budget based on the district's vision and goals, and regularly monitor the fiscal health of the district.

7. Ensure that a safe and appropriate educational environment is provided to all students.

8. Establish a framework for the district’s collective bargaining process and adopt responsible agreements.

9. Provide community leadership on educational issues and advocate on behalf of students and public education at the local, state and federal levels.

Superintendent
As a corollary to the CSBA Professional Governance Standards, a team of California superintendents including the ACSA Superintendents Committee and the CSBA Superintendents Advisory Council has developed a set of Superintendent Governance Standards. The Superintendent:

1. Promotes the success of all students and supports the efforts of the Board of Trustees to keep the district focused on learning and achievement.
2. Values, advocates and supports public education and all stake holders.

3. Recognizes and respects the differences of perspective and style on the Board and among staff, students, parents and the community — and ensures that the diverse range of views inform board decisions.

4. Acts with dignity, treats everyone with civility and respect, and understands the implications of demeanor and behavior.

5. Serves as a model for the value of lifelong learning and supports the Board’s continuous professional development.

6. Works with the Board as a “governance team” and assures collective responsibility for building a unity of purpose, communicating a common vision and creating a positive organizational culture.

7. Recognizes that the board/superintendent governance relationship is supported by the management team in each district.

8. Understands the distinctions between board and staff roles, and respects the role of the Board as the representative of the community.

9. Understands that authority rests with the Board as a whole; provides guidance to the Board to assist in decision-making; and provides leadership based on the direction of the Board as a whole.

10. Communicates openly with trust and integrity including providing all members of the Board with equal access to information, and recognizing the importance of both responsive and anticipatory communications.

11. Accepts leadership responsibility and accountability for implementing the vision, goals and policies of the district.
