Parents, Families and Friends:

I know that we are all deeply affected by the recent public social injustices. The reaction of so many in this country has created a movement and dialogue that we, as educators, have an obligation to acknowledge and act upon.

Our District stands united in its commitment to combat racism, bigotry, bias, and discrimination in all forms. Our District and staff are committed to supporting the diversity of all students. We believe in educating our students to be civically and socially minded. We strive to create a caring culture and environment that cares about the well-being of everyone no matter their race, color, gender, or sexual orientation. Additionally, we understand our role as an education institution to develop curriculum and social programs to help foster an understanding of the histories and traditions of multiple cultures as a way to address racism and other forms of oppression.

Though this statement may be considered late in regards to the recent social unrest in our country, let it be known that we do not accept social injustice and believe in equity for all.

Thanks,

Todd Cutler, Ed.D.
